

Master's Thesis für den Studiengang Bauingenieurwesen

Fin-tech and real estate (Fin-Tech und Immobilien)

“FinTech is no longer just a buzzword tossed around by people working on the cutting edge of the tech industry. Real Estate is a capital intensive asset class, as a result, new financial technology can generate a serious impact on the real estate industry. How will FinTech affect the real estate industry?”

Expectation:

- Review of origins and growth of Fin-Tech
- Survey of financing source of a certain type of real estate development.
- Survey analysis on the potential impact of Fin-Tech on real estate industry

Suggested Literature:

Dorfleitner, G., L. Hornuf, M. Schmitt and M. Weber (2016). The FinTech Market in Germany.

Deloitte (2018) Why should companies focus on Real Estate fintech startups.
